

New e-Resources Available in your library!

*Looking for a way to minimize your
searching time?*

We can help you!

Try Now!!

(Until 15th May 2015)

From now on **until 15 May**, 2 comprehensive
databases are free to use in UGM, to help you
save time in your study:

SpringerProtocols

- ▶ Biomedical and life sciences protocols
- ▶ Tried and tested resources including
Methods in Molecular Biology

Find out protocols for your lab preparation on
springerprotocols.com

SpringerMaterials

- ▶ Physical and chemical data in materials science
- ▶ Complete access to the Landolt-Bornstein
New Series and other integrated resources

Search for those data on materials.springer.com

Go to library website, you can access to the 2 databases easily!

The 2 databases are available anytime anywhere!
Try now and find out how they can help your research!
